TO SILVERWARE BUYERS

WE PRESENT this 1899-1900 end-of-the-century book of illustrations of new silverware with the hope that our customers will in it find evidence of the progress which we endeavor to make from year to year in the range and artistic excellence of our designs.

Many of those who receive this catalogue will, we trust, take the opportunity of testing at first hand, in the goods themselves, the quality of our workmanship.

While the illustrations presented herewith are the best of their kind that can be made, we earnestly request those who are in the market for silver-plated ware will send us a line requesting that one of our travelling salesmen call upon them and show the very fine large photogravure reproductions of these and many other novelties of the season with which they are equipped. These have been especially prepared for our salesmen's use, and give, of course, a much better idea of the beauty of the goods than any small cuts.

We regret that their cost prohibits using them as illustrations to send to the trade, but our salesmen are always glad to call and show them to any one interested in high-class plated ware.

If you are not already on our list of regular customers, we hope that before the close of the year we may have the pleasure of placing you there. We solicit your correspondence and await your favors.

CATALOGUE SUPPLEMENT—
Fine Plated Table Ware. 1898
JAMES W.
LUTTS,
BOSTON.

The image is a vintage advertisement for 'Fine Plated Table Ware' by James W. Lutts of Boston. The top half of the image features stylized text: 'CATALOGUE SUPPLEMENT—' in a decorative, outlined font, followed by 'Fine Plated Table Ware.' in a large, elegant script. To the right of 'Table Ware.' is the year '1898'. Below this, the name 'JAMES W.' is written in a bold, outlined script, followed by 'LUTTS,' and 'BOSTON.' in a similar style. The bottom half of the image shows a collection of ornate silver-plated tableware arranged on a dark, reflective surface. The items include a large teapot with a high handle, a smaller teapot, a vase with a floral design, a pitcher, a bowl, and a tray. The background is a light, textured surface, possibly a wall or a backdrop, which makes the dark, polished items stand out.

INTRODUCTORY.

Notwithstanding the great improvement in half-tone plate making, the cuts fall far short of doing justice to the articles illustrated in the following pages and fail to give an adequate idea of the artistic merit of the designs, or the perfection of workmanship in the ware.

The test that most concerns the dealer is salability, and in this particular, it will be found that the goods here illustrated are fully up to the standard of those produced in former years.

My prices continue to be low and the quality is excelled by no other goods manufactured.

INTRODUCTORY.

Although great skill has been exercised in producing the illustrations shown in this pamphlet of the recent additions to the line of ware, they fail to convey the beauty and attractiveness of the goods. Customers will find them as salable as any which have preceded them, and fully equal in style, material and workmanship. Notwithstanding that prices are lower, the standard of quality remains unchanged, and the durability of plating continues to be guaranteed satisfactory to the purchaser or the article replaced.

JAMES W. ZUPPS

MANUFACTURER OF
SILVER PLATED WARE
BOSTON, MASS.

I GUARANTEE that all goods manufactured by me, and bearing my Quadruple Plate stamp are equal in finish and quality of Silver Plating, to any Plated Ware manufactured. I further agree, to replace goods if the Silver Plating does not stand years of active service, to the entire satisfaction of the purchaser.
